this book helps students learn about many types of tables and graphs practice includes constructing tables charts stem and leaf plots picture graphs circle graphs bar graphs and line graphs these pages may be assigned as a class lesson individual seat work or homework activities

this book helps students learn about many types of tables and graphs practice includes constructing tables charts stem and leaf plots picture graphs circle graphs bar graphs and line graphs these pages may be assigned as a class lesson individual seat work or homework activities

information no matter how important cannot speak for itself to tell its story it relies on us to give it a clear voice no information is more critical than quantitative data numbers that reveal what's happening how our organizations are performing and opportunities to do better numbers are usually presented in tables and graphs but few are properly designed resulting not only in poor communication but at times in miscommunication this is a travesty because the skills needed to present quantitative information effectively are simple to learn good communication doesn't just happen it is the result of good design

make your figures speak for themselves this book will show you how to present numeric information in the clearest and most effective way use numbers tables graphs and charts to best advantage and turn raw data into accessible and analytical information

this packet helps students learn about many types of tables and graphs as well as how to collect and organize data practice includes constructing tables charts bar graphs and line graphs these pages may be assigned as a class lesson individual seat work or homework activities this book helps students learn about many types of tables and graphs practice includes venn diagrams and stem and leaf plots these pages may be assigned as a class lesson individual seat work or homework activities answer key is included

provides information on creating tables charts and graphs using microsoft word

simple visual references to all the computer skills you need from word processing to the internet each book in the series is geared toward solving a specific task by using the most up to date software available
